Compound shapes

1 For each of the following figures:

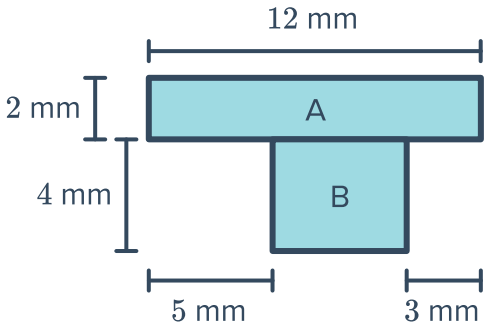

i Find the area of rectangle B.

ii Find the total area of the compound shape.

a

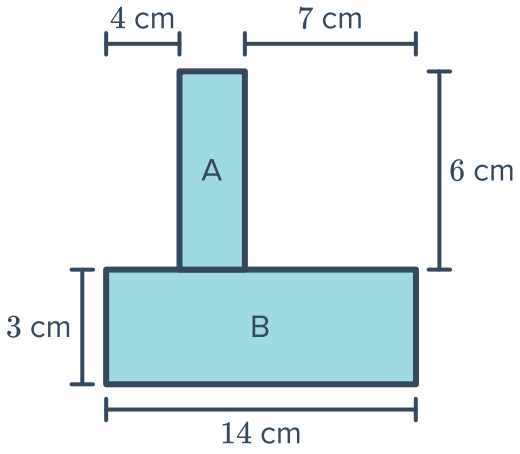

b

2 For the following compound shape:

a Find the area of rectangle A.

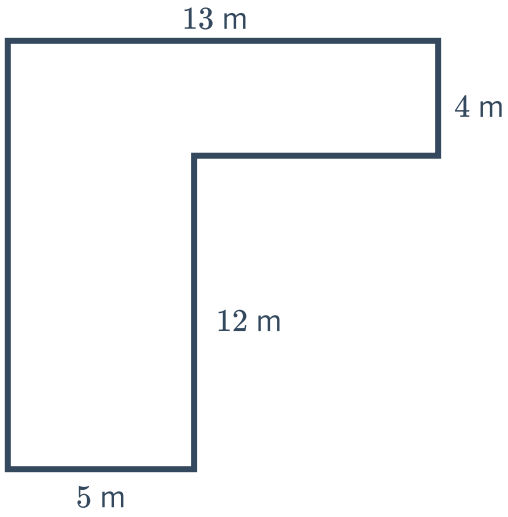

b Find the total area of the given shape.

Holes and cutaways

6 Consider the following figures, where all measurements are in centimetres:

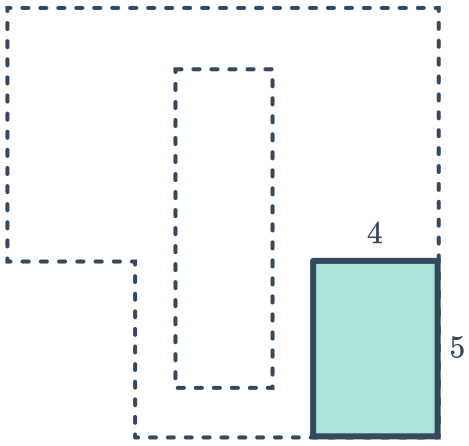

- Figure 1:

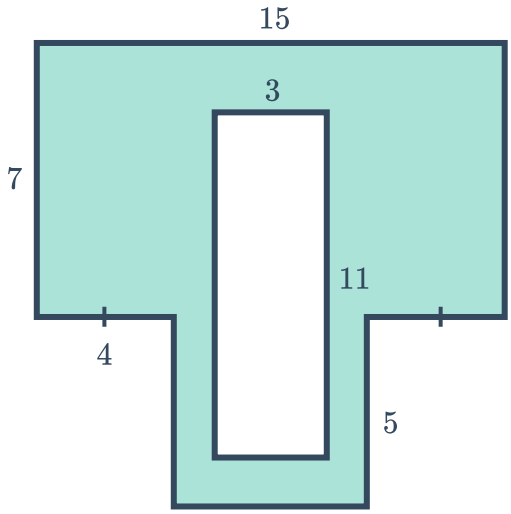

- Figure 2:

- Figure 3:

- Figure 4:

a Find the area of the entire rectangle shaded as shown in figure 1.

b Find the area of the interior rectangle shaded as shown in figure 2.

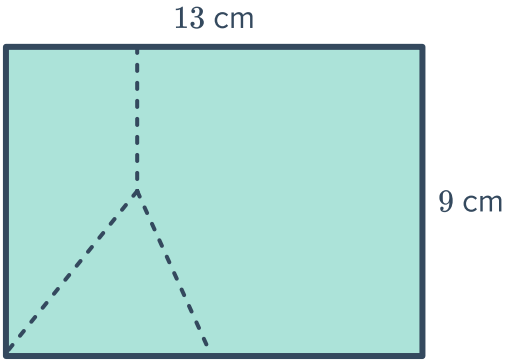

c Find the area of the corner rectangle shaded as shown in figure 3.

d Hence, calculate the area of the shaded region as shown in figure 4.

7 Consider the following figures:

- Figure 1:

- Figure 2:

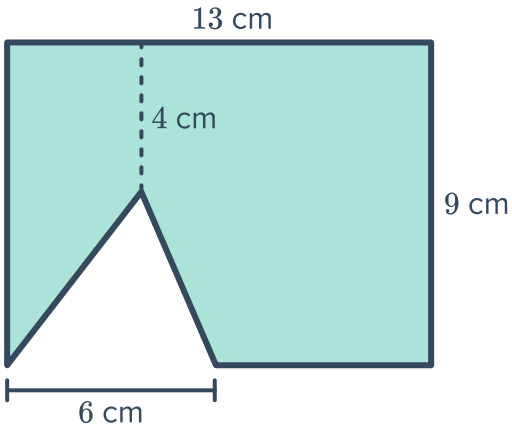

a Find the area of the shaded rectangle as shown in figure 1.

b Find the area of the shaded triangle as shown in figure 2.

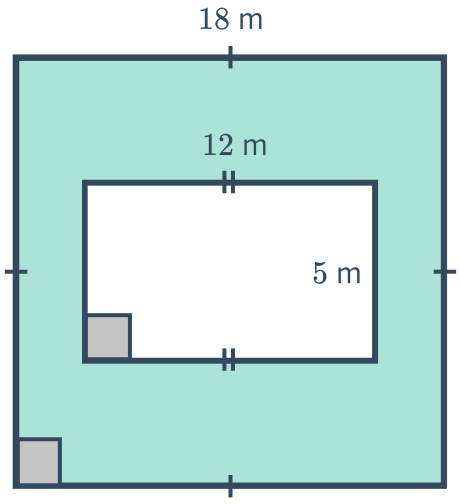

c Hence, find the area of the shaded region as shown in figure 3.

- Figure 3:

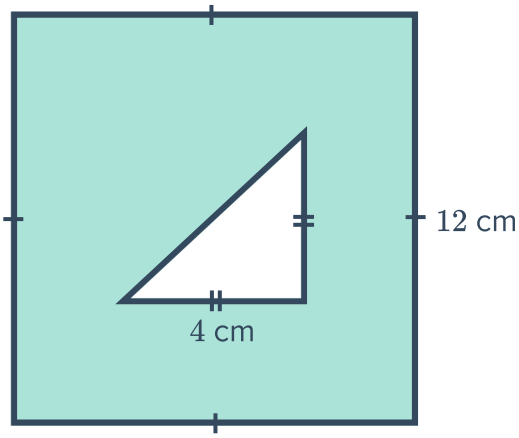

8 Find the area of the shaded region in the the following figures:

a

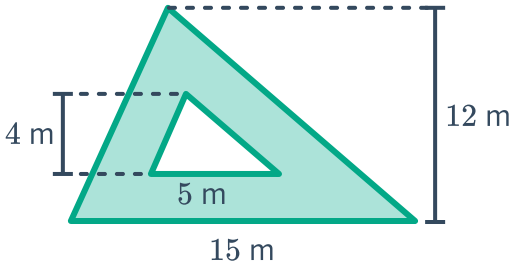

b

9 Consider the following figure:

a Find the value of x.

b Find the area of the shaded region.

© ClipSAT: By Mr. Mohamed Abdallah +966597688647

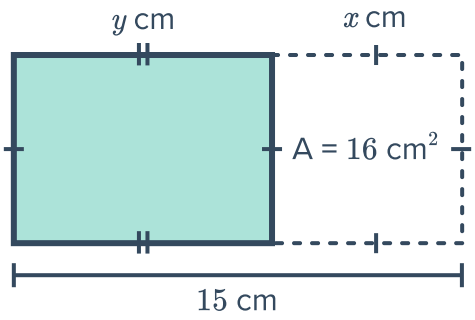

10 For each of the following figures:

i Find the value of x.

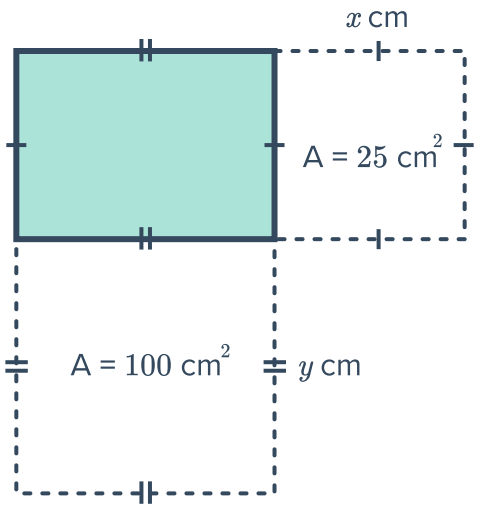

ii Find the value of y.

iii Calculate the area of the shaded region.

a

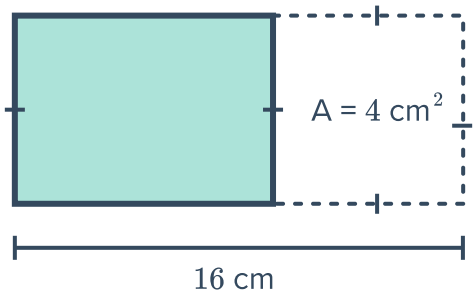

b

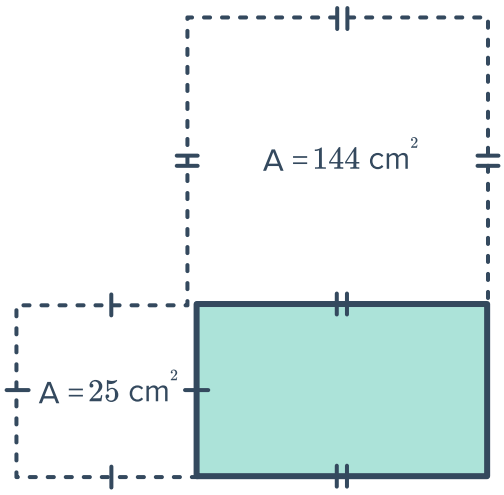

11 Find the area of the shaded region in the following figures:

Applications

12 Katrina has a garden bed that is shaped as shown in the following figure:

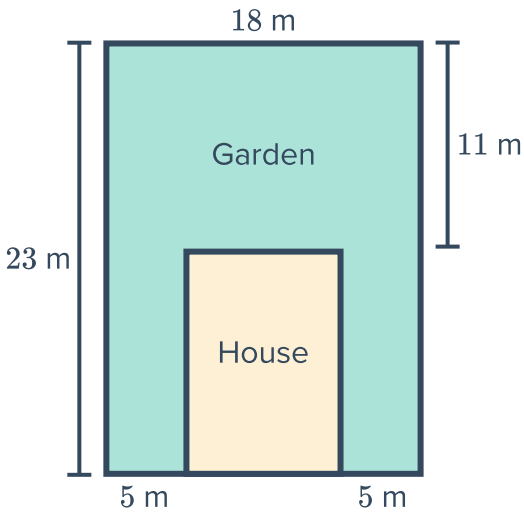

Find the area of the garden bed.

13 Lachlan draws the plot of land which contains his house and garden.

a Find the total area of the plot of land.

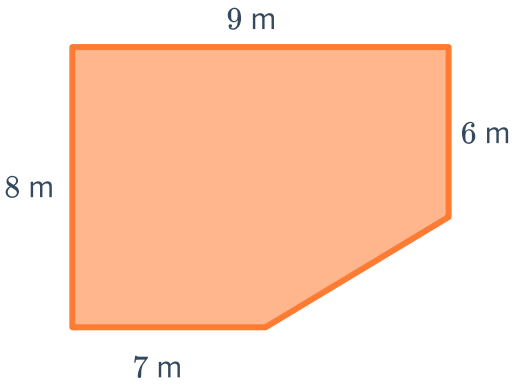

b Find the area covered by the house.

14 The dining room floor shown is to be tiled with slate tiles. The cost of tiling the room is $10 per square metre.

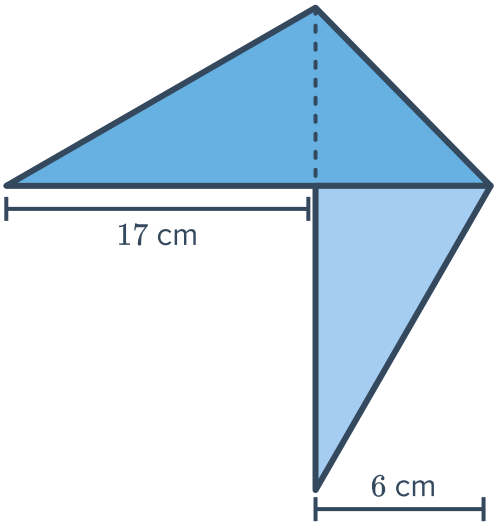

a Calculate the area to be tiled.

b How much will it cost to tile the room?

© ClipSAT: By Mr. Mohamed Abdallah +966597688647

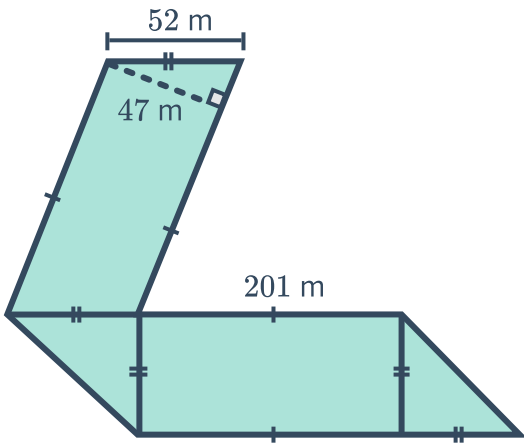

15 A piece of paper in the shape of a parallelogram is folded along its shortest diagonal, as shown. Find the total area covered by the folded paper.

16 A farmer is going to fertilise his paddock, which has the following shape:

a Find the area of the paddock.

b If it takes 150 kg of fertiliser to fertilise 100 square metres, how many kilograms of fertiliser should the farmer purchase?
