Gradient of a line

1

a The line has a gradient of zero.

b The line has an undefined gradient.

c The line has a positive gradient.

d The line has a negative gradient.

2

a i 2 ii 6 iii $\frac{1}{3}$

b i 12 ii 6 iii 2

c i 14 ii 7 iii 2

d i 12 ii 4 iii 3

e i -12 ii 4 iii -3

f i -6 ii 2 iii -3

g i -6 ii 6 iii -1

h i 8 ii 8 iii 1

3 Because a vertical line has no run. So the formula for the gradient $\frac{\text{rise}}{\text{run}}$ will have a denominator of zero, and any fraction with a sero denominator is undefined.
