3 For each of the following diagrams:

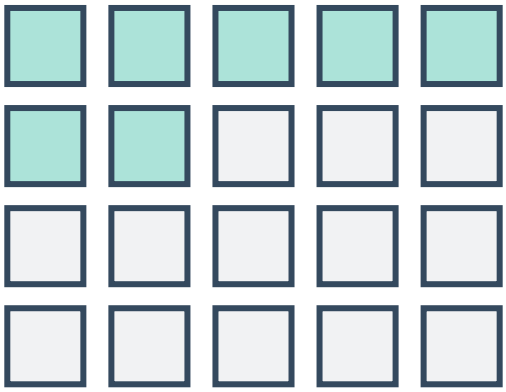

i Write the ratio of shaded squares to non-shaded squares.

ii Write the ratio of shaded squares to total squares.

a

b

4 For each of the following diagrams:

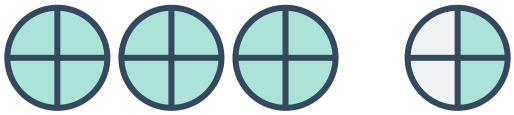

i Write the ratio of shaded sectors to non-shaded sectors.

ii Write the ratio of shaded sectors to total sectors.

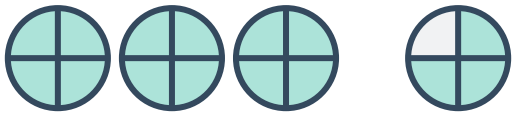

a

b

c

5 Express each pair of quantities as a ratio:

a $\$5$ to $\$7$.

b 47 volts to 43 volts.

c 13 minutes to 17 minutes.

d 37 lollies to 17 lollies.

e 5 seconds to 26 seconds.

f 13 newtons to 29 newtons.

g 15 oranges to 76 oranges.

h 130 days to 171 days.

6 A bridge is made up of 3 lengths: PQ, QR and RS as shown in the figure:

a Find the total length of the bridge.

b Write the lengths of PQ to RS as a ratio.

c Write the lengths of PQ to PS as a ratio.

d Write the lengths of PQ to QR to RS as a ratio.

7 In a bag there are 20 marbles. If there are 5 green marbles, 6 blue marbles, 2 red marbles and 7 yellow marbles. Find the ratios of the coloured marbles below:

a Green to red.

b Blue to red.

c Green to blue.

d Yellow to the total number of marbles.
