Quantitative Comparisons

Section 1: Arithmetic & Fractional Comparisons

1 Compare: Column A: $\frac{7}{8}$, Column B: $\frac{8}{9}$.

a. Value in Column B is greater

b. Value in Column A is greater

c. The two values are equal

d. The information given is insufficient

2 Compare: Column A: $\sqrt{0.49}$, Column B: 0.7.

a. The two values are equal

b. Value in Column A is greater

c. Value in Column B is greater

d. The information given is insufficient

3 Compare: Column A: $\frac{1}{3} + \frac{1}{4}$, Column B: $\frac{7}{12}$.

a. The two values are equal

b. Value in Column A is greater

c. Value in Column B is greater

d. The information given is insufficient

4 Given that $x > 0$ and $y < 0$, compare: Column A: $x - y$, Column B: $y - x$.

a. Value in Column A is greater

b. Value in Column B is greater

c. The two values are equal

d. The information given is insufficient

5 Given that $a^2 = 25$, compare: Column A: a, Column B: 0.

a. The information given is insufficient

b. Value in Column A is greater

c. Value in Column B is greater

d. The two values are equal

6 Given that $x > 1$, compare: Column A: x^2, Column B: x^3.

a. Value in Column B is greater

b. Value in Column A is greater

c. The two values are equal

d. The information given is insufficient

Section 3: Geometric & Measurement Comparisons

7 A circle has radius 5 cm and a square has side length 9 cm. Compare: Column A: Area of the circle, Column B: Area of the square.

a. Value in Column B is greater

b. Value in Column A is greater

c. The two values are equal

d. The information given is insufficient

8 In $\triangle ABC$, $\angle A = 50^\circ$ and $\angle B = 70^\circ$. Compare: Column A: Length of side AB, Column B: Length of side AC.

a. Value in Column B is greater

b. Value in Column A is greater

c. The two values are equal

d. The information given is insufficient

9 Compare: Column A: The perimeter of a rectangle with length 8 and width 4, Column B: The perimeter of a square of area 36.

a. The two values are equal

b. Value in Column A is greater

c. Value in Column B is greater

d. The information given is insufficient

Section 4: Powers, Radicals & Number Theory

10 Compare: Column A: 2^{50}, Column B: 3^{30}.

a. Value in Column A is greater

b. Value in Column B is greater

c. The two values are equal

d. The information given is insufficient

11 Compare: Column A: $\sqrt{64 + 36}$, Column B: $\sqrt{64} + \sqrt{36}$.

a. Value in Column B is greater

b. Value in Column A is greater

c. The two values are equal

d. The information given is insufficient

© ClipSAT: By Mr. Mohamed Abdallah +966597688647

12 Compare: Column A: $(-1)^{100}$, Column B: $(-1)^{101}$.

a. Value in Column A is greater

b. Value in Column B is greater

c. The two values are equal

d. The information given is insufficient
