

Comparison of linear relationships

- 1
 - a Function 1
 - e Function 2
 - b Function 1
 - f Function 2
 - c Function 2
 - d Function 1
- 2
 - a Function 2
 - e Function 1
 - b Function 1
 - f Function 2
 - c Function 2
 - g Function 2
 - d Function 2
 - h Function 2
- 3
 - a Function 2
 - e Function 1
 - b Function 1
 - f Function 1
 - c Function 2
 - d Function 2
- 4 Smaller
- 5 Greater
- 6 Function 1
- 7 Function 1
- 8 Function 2
- 9
 - a Function 1
 - b Function 2
- 10
 - a Function 1
 - b Function 1
- 11 Function 2
- 12
 - a Function 1
 - e Function 4
 - b Function 1
 - c Function 1
 - d Function 1
- 13 Greater

14 Smaller

15 More rapidly

Applications

16

a $u = 20$

b Compunet

17

a 60 mi/h

b 71 mi/h

c Bus

18

a 4 mg/min

b 5.9

c In capsule form

19 Vanessa's, since her interest increased by a constant amount (\$4) each year, whereas Amy's increased by \$8 during the second year and then \$4 during the third year.
