

Set builder notation

1 List all the elements of the following sets:

- a {positive odd numbers less than 10}
- b {positive multiples of 4 that are less than 46}
- c {positive even integers that are less than 16}
- d {positive factors of 42}
- e {square numbers less than 109}
- f {numbers that can be rolled on a standard die}
- g $\{x \mid x \text{ is a natural number less than } 5\}$
- h $\{x \mid x \text{ is an odd whole number less than } 13\}$
- i $\{x \mid x \text{ is an integer between } -8 \text{ and } -3 \text{ (not inclusive)}\}$

2 Determine whether the following statements are true or false:

- a $3 \in \{x \mid x \text{ is a rational number}\}$
- b $3 \in \{2, 4, 5, 8\}$
- c $1 \in \{9, 8, 6, 5, 1\}$
- d $-0.25 \in \{x \mid x \text{ is a natural number}\}$

3 Consider the set $A = \{2, 4, 6, 8\}$. Construct a set builder notation for A .

Special number sets

4 Determine whether the following statements are true or false:

- a $-6 \notin \mathbb{Z}$
- b $\frac{5}{2} \in \mathbb{R}$
- c $\pi \in \mathbb{N}$
- d $\sqrt{2} \in \mathbb{Z}^+$

5 Determine whether the following statements are true or false:

- a $\mathbb{N} \subset \mathbb{R}$
- b $\mathbb{Z}^+ \subseteq \mathbb{Z}$
- c $0, 1, 5, -9 \notin \mathbb{R}$
- d $\mathbb{Q} \subseteq \mathbb{R}$
- e $\mathbb{R} \subseteq \mathbb{N}$
- f $\mathbb{Z} \subseteq \mathbb{N}$
- g $\mathbb{Z}^+ \subset \mathbb{Q}$
- h $\mathbb{N} \subseteq \mathbb{N}$

- 6 Complete the following table to indicate whether each number belongs in the number set:

	$\mathbb{N}$	$\mathbb{Z}$	$\mathbb{Z}^+$	$\mathbb{Q}$	$\mathbb{R}$
5	Y	Y	Y	Y	Y
-3	N	Y	N	N	Y
123					
-94.5					
$\frac{3}{4}$					
$\sqrt{5}$					
$\sqrt{-1}$
