Comparison of linear relationships

1

a Function 1 **b** Function 1 **c** Function 2 **d** Function 1

e Function 2 **f** Function 2

2

a Function 2 **b** Function 1 **c** Function 2 **d** Function 2

e Function 1 **f** Function 2 **g** Function 2 **h** Function 2

3

a Function 2 **b** Function 1 **c** Function 2 **d** Function 2

e Function 1 **f** Function 1

4 Smaller

5 Greater

6 Function 1

7 Function 1

8 Function 2

9

a Function 1 **b** Function 2

10

a Function 1 **b** Function 1

11 Function 2

12

a Function 1 **b** Function 1 **c** Function 1 **d** Function 1

e Function 4

13 Greater

14 Smaller

15 More rapidly

Applications

16

a $u = 20$ **b** Compunet

17

a $60\ \text{mi/h}$ **b** $71\ \text{mi/h}$ **c** Bus

18

a $4\ \text{mg/min}$ **b** 5.9 **c** In capsule form

19 Vanessa's, since her interest increased by a constant amount ($\$4$) each year, whereas Amy's increased by $\$8$ during the second year and then $\$4$ during the third year.
