Direct and inverse variation

1 $k = 2$

2

a $M = kN^2$

b $k = 4$

3

a $y = kx^3$

b $k = 3$

4

a $y = kx^n$

b $k = 8$

5

a $y = kx^n$

b $k = -6$

6 $k = 2$

7 $k = \dfrac{3}{4}$

8

a $m = \frac{1}{4}$

b $k = 2$

Applications

9

a 1.27 AUD/USD

b 0.79 USD/AUD

10

a $H = kM$

b $k = 0.006$

c $H = 0.342$

d $M = 14$

11

a $C = k\sqrt[4]{B}$

b $k = 17.4$

c $C = 43.8$

d $B = 2.6$
