Discrete random variable probability distributions

1

a Yes, because $\Sigma P(x) = 1, X$ is discrete numerical, and $0 \leq P(x) \leq 1$.

b No, because even though X is discrete numerical, the other two conditions where $\Sigma P(x) = 1$ and $0 \leq P(x) \leq 1$ are not satisfied.

2

a No **b** Yes **c** No **d** Yes

3

a

i

- $0 \leq P(x) \leq 1$
- $\Sigma P(x) = 1$
- X is discrete numerical.

ii Yes

b

i

- $0 \leq P(x) \leq 1$
- X is discrete numerical.

ii No

c

i

- $0 \leq P(x) \leq 1$
- $\Sigma P(x) = 1$
- X is discrete numerical.

ii Yes

d

i

- $0 \leq P(x) \leq 1$
- X is discrete numerical.

ii No

4

a

x	1	2	3
$P(X = x)$	$\frac{1}{6}$	$\frac{2}{6}$	$\frac{3}{6}$

b Yes, because $\Sigma P(x) = 1, X$ is discrete numerical, and $0 \leq P(x) \leq 1$.
