6

a $p = \frac{2}{3}, 1$

b

i For $p = \frac{2}{3}$: $E(X) = \frac{58}{15}$ and for $p = 1$: $E(X) = \frac{16}{5}$

ii For $p = \frac{2}{3}$: $P(X \geq E(X)) = \frac{8}{15}$ and for $p = 1$: $P(X \geq E(X)) = \frac{1}{5}$

7

a

i $1, 3, 4, 5$ **ii** Non-uniform **iii** 3.85

b

i $1, 2, 3, 4, 5$ **ii** Uniform **iii** 3

8

a

i 30 **ii** Equal

ii The graph is symmetrical.

b

i 3.6 **ii** Higher

ii The graph is negatively skewed.

Variance and standard deviation

9

17

a Distribution A: 4, Distribution B: 3

b Distribution A: Negatively skewed, Distribution B: Positively skewed

c Equal for both distributions.

d 1

e 1

f Equal, distribution B is a mirror image of distribution A over the same range, so the values will have the same average distance from the mean value. Hence, distribution B will have the same standard deviation.
