Population or sample

1 False

2

a Sample **b** Census **c** Sample **d** Census

e Census **f** Sample **g** Sample **h** Sample

3

a Census **b** Sample **c** Census **d** Sample

e Census **f** Sample **g** Census **h** Census

Sampling bias and misleading statements

4 Fair

5

a No **b** No **c** Yes **d** Yes

6

a Yes **b** Yes **c** No

7

a The sample is not representative of the target population.

b The sample is from self-selecting participants, i.e. only those that made an effort to respond.

8 Only 58% responded so these results are not indicative of all customers and only two options for the response does provide enough options for the reply.

9

a Yes **b** No **c** No **d** No

10 Kang has used only the statistics that are favourable to him.

Types of sampling

11

a Random sampling

b Systematic sampling

c Stratified sampling

d Convenience sampling

e Quota sampling

12 $1\,089\,600$ people

13

a 10 students

b

i 990 students **ii** 630 students **iii** 540 students

14

a 180 laptops

b 22 laptops

15

a 264 iPhones

b 39 iPhones

16

a 8 males

b 10 females

17

a 1110 people

b 37 people

c

i 5 **ii** 13 **iii** 9 **iv** 10

18 $33, 115, 76, 171$

19

a 6 products **b** 10 products **c** 7 products **d** 23 products

20

a 5

b 4

21

a $37, 57, 50, 47, 72$

b 35
