3 In the quadrilateral $ABCD$, side AB has a length of 6. State which other side of $ABCD$ has a length of 6:

4 Which pair of sides are parallel in this trapezium?

5 What is largest number of internal reflex angles that a quadrilateral can have? Explain your answer.

6 What is the largest number of obtuse angles that a quadrilateral can have? Explain your answer.

7 What is the largest number of right angles that a quadrilateral can have? Explain your answer.

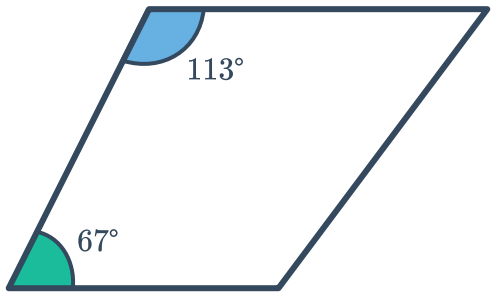

8 Can a quadrilateral have exactly 2 right angles? If so, name a quadrilateral that could have two right-angles.

9 Can a quadrilateral have exactly 3 right angles? If so, name a quadrilateral that could have two right-angles.
