

Area of a rectangle

- 1 In the following diagrams, each grid square represents 1 square unit. Find the area of the following shapes by counting the number of grid squares it covers:

a

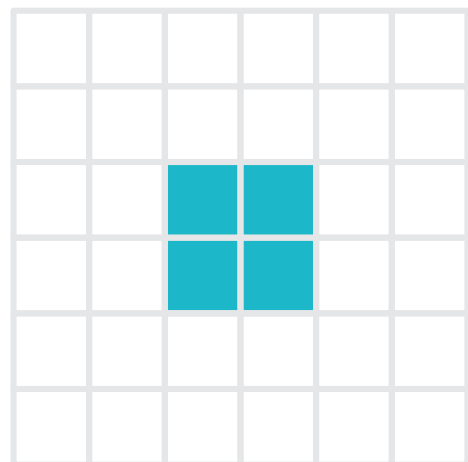

b

- 2 The area of the shape shown was measured using a centimetre grid.

What unit should we use to describe its area?

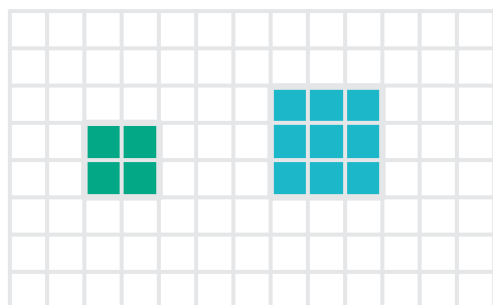

3 For each of the following pairs of shapes:

i Find the area of Shape A.

ii Find the area of Shape B.

iii State which shape is the smallest.

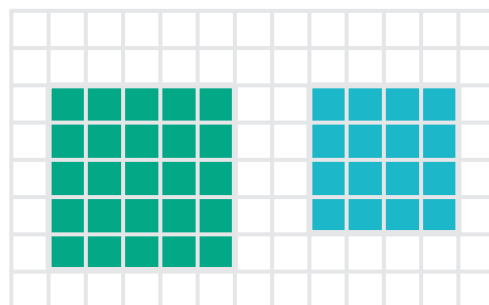

a
